Patents

Patents 1 - 10 on **send message layer protocol encryption "medium access control"**. (0.07 seconds)

Communications system and method of operation

[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

US Pat. 5822314 - Filed May 29, 1996 - Motorola, Inc.

The MM can then **send a message** to the MAC via the MLE and **layer** management functions, which will start operation of the **encryption** process. ...

Using decoupled power **control** sub-channel to **control** reverse-link channel power

US Pat. 6434367 - Filed Jun 11, 1999 - Lucent Technologies Inc.

4A-C show representations of the **protocol** stacks for (A) a frame selection/distribution ... the **medium access control** function and the MAC **layer** controller, ...

Method and apparatus for **medium access control** in powerline communication ...

US Pat. 6854059 - Filed Jun 6, 2001 - Conexant Systems, Inc.

Each client indicates which **encryption** algorithms it supports in the ... most typically provided to the MAC **layer** through a MAC-KEY.req primitive from the ...

Primary transfer for simplex mode forward-link high-speed packet data ...

US Pat. 6507572 - Filed Jun 11, 1999 - Lucent Technologies Inc.

4A-C show representations of the **protocol** stacks for (A) an FSD function, ... respectively, the **medium access control** function and the MAC **layer** controller, ...

Method and apparatus for high data rate transmission in a wireless ...

US Pat. 6747964 - Filed Sep 15, 2000 - Qualcomm Incorporated

The **Medium Access Control** (MAC) **layer** 14 defines the procedures used to receive and transmit over ... authentication, **encryption** and multi-**protocol** support. ...

Low back haul reactivation delay for high-speed packet data services in CDMA ...

US Pat. 6757270 - Filed Jun 11, 1999 - Lucent Technologies Inc.

4A-C show representations of the **protocol** stacks 20 for (A) an FSD function, ... the **medium access control** function and the MAC **layer** controller, ...

Mobility architecture using pre-authentication, pre-configuration and/or ...

US Pat. 7046647 - Filed Jan 22, 2004 - Toshiba America Research, Inc.

In addition, ipsec (Internet **Protocol** Security) is a framework for a set of protocols "Wireless **Medium Access Control** (MAC) and physical **layer** (PHY) ...

Naming distribution method for ad hoc networks

US Pat. 7089298 - Filed Aug 20, 2001 - Nokia Corporation

This is accomplished by forming an ADD DEVICE **message** 244 for each name record in ... The **medium access control** (MAC) **protocol** regulates access to the RF ...

Wireless local or metropolitan area network with intrusion detection ...

US Pat. 7224678 - Filed Aug 12, 2002 - Harris Corporation

More particularly, WEP provides for 60 the **encryption** of messages to be ... and recording media access control (MAC) addresses or Internet **protocol** (IP) ...

Detection of duplicate participants in a two-way modem environment

US Pat. 7006446 - Filed Jan 14, 2000 - General Instrument Corporation

Such modems are increasingly being used to allow network users to **send** and receive

... only physical security associated with **encryption** keys is provided; ...
